# X.VILIJORD

## SPECS

### 1 PEAK EXTENSOR

For Highway or Off-road use, adjustable in movement and no tools required.

### 3 CONNECTED TO THE WORLD

Designed to offer a natural and intuitive interaction, just talk to have things done or use the simplified 3-button system to control the various functions. X-COM 2 is designed from the ground to incorporate plug-in components, so that battery and wires do not compromise the space or aesthetics of the helmet.

### 5 A PAIR OF EXTRA EYES

Record all your travels and your best moments to remember them later. Practical and removable, two brackets for action cameras come included with the helmet, to facilitate their placement on the top and/or side of the helmet.

### 2 OFF ROAD CHIN VENT

For extra fresh air in the chin area.

### 4 WINTER MEMBRANE

The Winter Membrane allows a better control over the fresh air flow. It can be disabled by folding it on the back part of the inner liner.

### 6 PEAK

Off Road design developed to provide additional direct air intake and reduce buffeting and vibration at high speed.

## Modular Adventure Helmet

NEXX's versatile go-anywhere, do-anything off-road Modular helmet.

The X.VILIJORD sits comfortably at the premium-level of modular helmets, designed to be simple and versatile, to face any upcoming challenge. While most motorcycles helmets often cater for either paved or off-road exploration, the X.VILIJORD essentially bridges the gap. Built around luxurious comforts, the off road solutions, the powerful ventilation and excellent fresh air distribution make it the perfect choice for demanding motorcycle Adventure travelers.

# X.WED 2

## SPECS

### 1 ACTION CAMERA & QUICK STRAP SUPPORTS

A removable support can be easily inserted in the top of the peak; also on both sides of the helmet there are action camera lateral supports; X.WED 2 is also prepared for Quick Strap System.

### 4 X-COM MOTORCYCLE COMMUNICATION SYSTEM

X.WED 2 is by default equipped to accommodate the NEXX Helmets X-COM Bluetooth Communication System.

### 6 PEAK EXTENSOR

For Highway or Off-road use, adjustable in movement and no tools required.

### 2 VISOR AND SUN VISOR

Super lock and Anti-fog position; prepared for Pinlock Fog-free lens.

### 5 PEAK

New aerodynamic design developed to provide additional direct air intake and reduce buffeting and vibration at high speed. Includes an adjustable Multi-Position system (incline / decline) up to 10 mm.

### 7 EMERGENCY STRAP V2

Built into each cheek Pad, the Emergency Strap system V2 was re-designed to allow easier and gentle access to an injured rider's head for the trained medical personnel.

### 3 OFF ROAD CHIN VENT

For extra fresh air in the chin area; included with the helmet.

## Adventure Helmet

The all-new X.WED 2 is NEXX's first update to its popular Dual-Sport helmet. X.WED 2 pitch has been 'the only thing that is changed is everything and despite the overall look, identical to its predecessor, X.WED 2 packs in more advanced features than ever and a long list of refinements, designed to offer the ultimate all-road, all-weather, WILD, adventure helmet.

# X.WRL

## SPECS

**1 ACTION CAMERA TOP SUPPORT**  
A removable support can be easily inserted in the top of the peak; also on both sides of the helmet there are action camera lateral supports; X.WRL is also prepared for Quick Strap System.

**6 NEW VISOR BUTTON**  
The peak can be easily removed thanks to a pair of new rotating buttons, designed to resist the most extreme conditions and with no tools required.

**10 BROW VENTILATION SYSTEM**  
For additional air flow to the brow and the head the X.WRL comes with 2 stoppered brow vents, easy operated even with gloves.

**2 PEAK**  
Aerodynamic design developed to provide additional direct air intake and reduce buffeting and vibration at high speed. Includes an adjustable Multi-Position system (incline / decline) up to 10 mm.

**7 X-PRO CARBON**  
Engineered for the elite motorcyclists and the weight conscience ones, the new X-PRO carbon with 3K carbon fabrics is 10% lighter than other carbon shells and offers higher stiffness and ultimate strength. The high fiber content ( $\geq 60\%$ ) maximizes the mechanical properties of the composite shell while the fiber distribution guarantees a uniform strength in all directions together with an exquisite appearance. Everything you'd expect from one of the most advanced carbon fiber helmet technology ever.

**11 EMERGENCY STRAP V2**  
Built into each cheek Pad, the Emergency Strap system V2 was re-designed to allow easier and gentle access to an injured rider's head for the trained medical personnel.

**3 PEAK EXTENSOR**  
For Highway or Off-road use, adjustable in movement and no tools required.

**12 X-HIDRO**  
Another special feature is the new X-HIDRO system. Get quick access to water with the new Kit! Making it easy to stay hydrated and keep your focus while riding. With an easy and fast setup, the new X-HIDRO kit will be available as accessory and is compatible with all the X.WRL models.

**4 OFF ROAD CHIN VENT**  
For extra fresh air in the chin area; included with the helmet.

**8 X-LOCK SYSTEM**  
All the X.WRL collection comes with standard Double D-ring and X-LOCK magnetic button to facilitate final fastening.

**5 INTEGRATED GOGGLE STRAP HOLDER**  
Keep your goggle strap in place and secure between runs on the back of the helmet with the new integrated google strap holder.

**9 NECK BRACE FIT**  
New shell design, lighter and compatible with neck brace.

**13 CHINSTRAP**  
The chinstrap cover is detachable, easy to remove and clean.

**14 VISOR**  
Visor included, prepared for Pinlock Fog-free lens.

## Adventure Helmet

The X.WRL (Wild Rally) is a supremely comfortable & lightweight Enduro Rally helmet that offers the ultimate protection and very impressive ventilation. It presents some great touches that make it work really well if you go full enduro with goggles.

# X.VILITUR

## SPECS

### 1 SUN VISOR

Equipped with an internal sun visor, filtering 99% of UV light, operated externally with an ergonomic button.

### 2 CONNECTED TO THE WORLD

Designed to offer a natural and intuitive interaction, just talk to have things done or use the simplified 3-button system to control the various functions. X-COM 2 is designed from the ground to incorporate plug-in components, so that battery and wires do not compromise the space or aesthetics of the helmet.

### 3 BREATHE DEEPLY

Breathe deeply, naturally and in fullness. The generous Air Dynamic System ventilation, featuring two air intakes and two outlets, allows the constant renewal of fresh air inside the helmet and an effective expulsion of the hot air.

### 4 A SANCTUARY FOR THOUGHTS

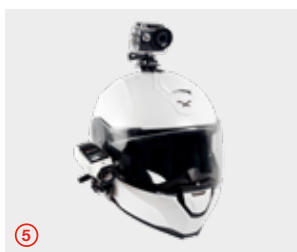

Silent driving enhances the ride. X.VILITUR's comprehensive soundproofing concept includes Vortex generators in chin area to reduce aerodynamic drag and double rubber sealing profiles around the visor and inside the mask, configured to improve sound insulation.

### 5 A PAIR OF EXTRA EYES

Record all your travels and your best moments to remember them later. Practical and removable, two brackets for action cameras come included with the helmet, to facilitate their placement on the top and/or side of the helmet.

### 6 WINTER MEMBRANE

The Winter Membrane allows a better control over the fresh air flow. It can be disabled by folding it on the back part of the inner liner.

## Modular Helmet

Style, comfort and performance unite with the essence of Gran Turismo, in a unique Modular, full of technology and solutions that bring you closer to the world that surrounds you. Enter the ultimate comfort zone - where safety meets peace of mind, the journey becomes unique and the pleasure of riding, pure emotion.

# X.R3R

## SPECS

### 1 CHIN SPEED-FLOW VENTILATION SYSTEM

The elongated chin vent shape helps to draw in more Race air, with an effective channeling system to disperse fresh air across the visor and face area.

### 2 DOUBLE BLOCK SYSTEM

The double visor block safety system prevents unexpected sudden opening of the visor shield and can be easily opened while wearing gloves. Includes 2 anti-fog positions.

### 3 REAR SPOILER EXTENSION

A translucent race-style spoiler extension can be added-on to turn the helmet amazingly stable at high speeds.

### 4 ANTI-VIBRATION RUBBER VISOR PLATE

The special Anti-vibration rubber visor plates are designed to absorb and evenly distribute vibrations to nominal levels.

### 5 BEAT THE HEAT

The innovative Air cumbs offer unparalleled levels of interior ventilation and comfort. X.R3R's crown pad it is sewn with a special alveolar mesh that creates a fresh air chamber between the EPS liner and the padding.

### 6 ADAPTIVE CROWN FIT SYSTEM

Utilizing X.R3R's adaptive crown fit system the crown pad can slide back and forward conforming the racer's preference for an even 360 fit, eliminating pressure points for maximum comfort and protection – up to a 6 level adjustment design.

### 7 EMERGENCY STRAP V2

Built into each cheek pad, the Emergency Strap System V2 allows an easy and gentle access to an injured rider's head by the trained medical personnel.

### 8 FINE-TUNE CHEEK PADS

X.R3R Cheek Pads are designed with a special internal pocket which functions as an adaptive system that can be fine-tuned to the Racer's preference with a range.

### 9 FEEL LIGHT

The X.R3R's complex aerodynamic concept is designed to maximize its performance, with 0 dynamic weight at 160 km/h.

### 10 X-LOCK SYSTEM

All the X.R3R collection comes with MotoGP standard Double D-ring and X-LOCK magnetic button to facilitate final fastening.

### 11 X-SENSUS VISION

Featuring a 225° horizontal field, an 85° vertical visual field, the 2-dimensional shape visor, made of unbreakable PC Lexan, optical class I and anti-scratch, is prepared for the application of tear-offs.

### 12 VISOR RECOIL SYSTEM

The Recoil Visor System with its spring-loaded base side plates auto-adjusts and pull the shield back against the dual-lip rubber profile for a perfect airtight seal.

### 13 FEEL FRESH

Featuring six air intakes and four exhaust outlets for maximum ventilation.

### 14 FEEL QUIET

X.R3R comprehensive soundproofing concept includes Vortex generators in chin area to reduce aerodynamic drag and lift and a double rubber sealing profile around the visor, configured to improve sound insulation.

### 15 ECE 22-06 HOMOLOGATED

The X.R3R comes with the new ECE 22-06 homologation which provides new tests performed at higher speed, with more impact locations, improved impact-absorption capacity and additional requirements for features such as retractable chin pieces and visors.

## Sport Racing Helmet

Uncompromisingly sporty, with an impressive design and the ultimate technology transferred from modern motorsports. The new X.R3R is minded for the most demanding conditions and emotions on the racetrack. A WINNER.

# X.WST 2

## SPECS

### 1 CHIN WIND STOPPER

Redesigned to reduce wind noise, drafts and provide a better snug fit around the neck and lower facial area.

### 2 X-BLOCK

Quick release visor system, extremely simple and light, with strong safety lock.

### 3 EMERGENCY STRAP V2

Built into each cheek Pad, the Emergency Strap system V2 was re-designed to allow easier and gentle access to an injured rider's head for the trained medical personnel.

### 4 X-COM MOTORCYCLE COMMUNICATION SYSTEM

X.WST 2 is by default equipped to accommodate the NEXX Helmets X-COM Bluetooth Communication System.

## Sport Helmet

The X.WST 2 is the street version of the popular X.WED 2, that has been redesigned to a more sportive version with integrated sun visor, a new visor mechanism and a lower weight. The sport character of the X.WST 2 makes it versatile for daily use in all kinds of weather.

# SX.100R

## SPECS

### 1 REAR SPOILER

The SX.100R is equipped with a double-blade air spoiler at the rear, designed to optimize aerodynamic performance and reduce turbulence at high speeds.

### 3 COMFORTABLE FIT

The new SX.100R interior offers a snug fit and more effective ventilation around the entire head contour for maximum comfort and distraction-free in high speed riding.

All interior parts, including the thick neck roll, are removable, skin friendly (Antiallergenic and Antibacterial properties) and made from soft touch X-Mart Dry fabrics that keep the interior cool, dry and comfortable.

### 4 LIGHTWEIGHT THERMOPLASTIC HELMET

Thanks to many hours spent in Aerodynamic studies and wind-tunnel tests the SX.100R special shape allows a relatively lightweight helmet, with a sporty design that optimizes both stability and soundproofing at high speed.

### 2 VENTILATION AND AIRFLOW

The large upper vent and the extremely efficient chin ventilation system allow a large volume of cool-air to enter the helmet. In turn, the dual EPS Liner includes an innovative air chamber between them: this allows a truly breathable helmet, with optimum exchange of warm, humid air with incoming cool, fresh air.

### 2 X-COM MOTORCYCLE COMMUNICATION SYSTEM

SX.100R is by default equipped to accommodate the NEXX Helmets X-COM Bluetooth Communication System.

## Sport Helmet

Introducing the new SX.100R. Quieter than ever. More aerodynamic, equipped with an efficient rear spoiler, designed to optimize performance and reduce turbulence at high speeds. Sport comfort with the new internal liner; more ergonomic and with breathable panels that allow more fresh air to enter around the head

# SX.100

## SPECS

### 1 OUTSTANDING EYE PORT

The wide visor offers an increased feeling of openness inside the helmet, a sense of freedom ideal for all urban conditions.

### 2 VENTILATION

Equipped with a large upper vent; the combination of Easy Flow channels in the EPS liner along the Chin Ventilation system ensure that fresh air is channeled and distributed efficiently around the head.

### 3 VISOR

Prepared for the use of Pinlock Fog-Free lens.

### 4 ULTRA-WIDE SUN VISOR

Retractable sun visor with external ergonomic button mechanism.

### 5 X-SWIFT QUICK RELEASE SYSTEM

The X-SWIFT Quick release visor mechanism makes changing visors extremely quick and simple (change in less than 8 seconds) without the need of any tool.

### 6 X-COM MOTORCYCLE COMMUNICATION SYSTEM

SX.100 is by default equipped to accommodate the NEXX Helmets X-COM Bluetooth Communication System.

## Urban Helmet

Have you ever wished for the best of both worlds?

Motorcyclists demand helmets with high quality features but commonly they find themselves looking for solutions at the cheapest price, sometimes compromising their comfort and / or even their safety. SX.100 is NEXX's attempt to bring some of the top-notch features of a high-end street full face helmet down into a more price friendly model — the best of both worlds!

### 1 SILENT CITY SEAL

One of its greatest features is the "SILENT CITY SEAL" - a special Rubber around the entire contour of the visor, developed to improve acoustic insulation and reduce vibrations in the visor.

### 2 A QUIET RIDING ENHANCES THE CITY COMMUTING.

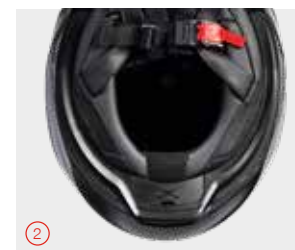

For this, the new Anti-Noise Cheek pads and neck roll play an important role, deflecting the wind and helping to reduce unwanted noise.

### 3 WINTER MEMBRANE

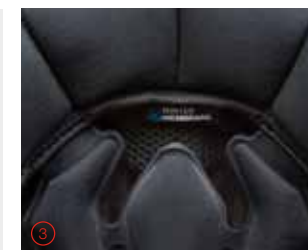

The X-SWIFT Quick release visor mechanism makes changing visors extremely quick and simple (change in less than 8 seconds) without the need of any tool.

X.G Rucksack Oil

09NEX06RUCK9990000  
X.G Rucksack Tank

## RUCKSACK

X.G Rucksack features a spacious interior compartment and pockets ideal for storing your helmet, its accessories and essentials. The easy reach central pocket can hold both visor and peak or essentials along two areas divided by an elastic band.

Specifications  
 - 440(H) X 380(W) X 250mm(D);  
 - 23L capacity;  
 - Water repellent wax cotton canvas;  
 - Lightweight and extremely resistant;  
 - Useful helmet carrier;  
 - Heritage style roll-top design;  
 - Front access pocket suitable for visors and peaks.

- Side release G-hooks;
- External rain cover;
- Padded and Adjustable shoulder strap;
- Leather top handle;
- Padded panel on the back for superior comfort;
- Motorcycle Luggage Straps included.

## FACE MASK

09NEX02RIOT9990000  
X.G Facemask Riot

## FACE MASK RIOT

ANCESTRAL FABRIC PURE VIRGIN WOOLBurel is an ancient woven fabric made of 100% Sheep Wool, probably brought to Portugal by monks in the 11th century, and used by the Mountain shepherds since then. Burel is made from a unique process of washing the wool, spinning the wool and weaving it into fabric. It then gets pounded and scalded with very hot water. The result is an easy-care fabric, wear-resistant, natural, and that is also water-repellent and fire retardant, without losing its flexibility.

Specifications  
 - Outshell in Burel fabric;  
 - 100% wool; water resistant; thermal insulation; abrasion resistance tough; flexible; natural; agro-product;  
 - tweed fabric lining and seamless elastic mesh for superior Comfort;  
 - anti-allergic, anti-bacterial;  
 - Air inlet in the mouth area;  
 - Protection for face, neck and nape;  
 - One size fits all.

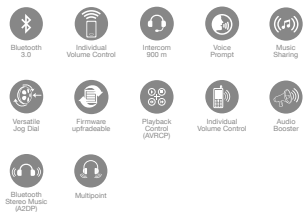

## X-COM

01XCOM0000  
X-COM

### FEATURES

## X-COM

The X-COM is a Bluetooth 3.0 stereo headset with long-range Bluetooth intercom designed specifically for motorcycle riders who prefer smaller form factor for maximizing their riding performance, yet maintaining rich features of Bluetooth intercom.

With the X-COM, you can call hands free on your Bluetooth mobile phone, listen to stereo music or voice instructions of GPS navigations by Bluetooth wirelessly, and have intercom conversations in full duplex with other riders.

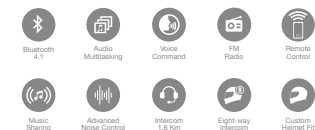

**Compatible with**  
X.WED 2, X.WST 2, SX.100,X.D1,  
X.T1 and SX.100R

## X-COM 2

09SEN99200099999  
X-COM 2

### FEATURES

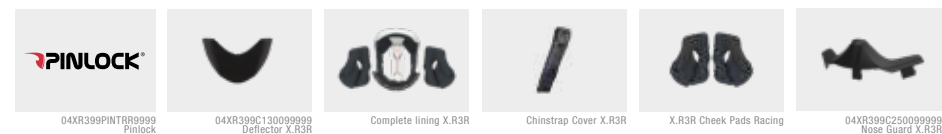

## X-COM 2

Designed to offer a natural and intuitive interaction, just talk to have things done or use the simplified 3-button system to control the various functions. X-COM 2 is designed from the ground to incorporate plug-in components, so that battery and wires do not compromise the space or aesthetics of the helmet.

Easy to plug and charge the battery, the powerful autonomy will allow you to enjoy up to 10 hours of talk time or hang

out for hours on the road, in stand-by. A dual Bluetooth chip enables up to connect to 8 riders, for maximum conversation with fellow travelers. For a more immersive experience, enjoy the Advanced Noise Control, an intelligent technology that regulates the volume of your music when the environment outside the helmet changes – all exclusive features, result of the prestigious collaboration with Sena, leader and worldwide specialist in Bluetooth solutions.

**Compatible with**  
X.VILITUR, X.VILIJORD and X.VILIBY
